

# MATH AND SOCIAL STUDIES ■ PRESIDENT'S TERMS

## MAC ACTIVITY 6

Study the list showing the dates of different presidents' administrations, written in words. Then make a table of the information, showing the presidents' names and their terms of office in number form. Your table should have two headings, Name of President and Term of Office.

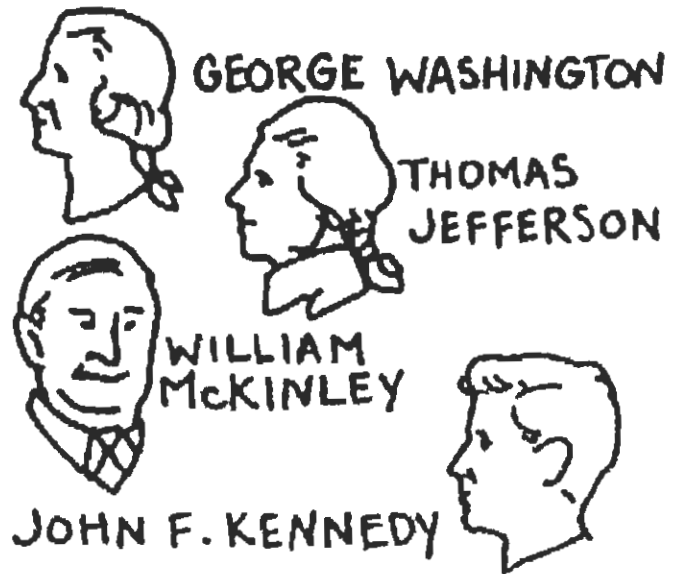

*George Washington:* one thousand, seven hundred eighty-nine to one thousand, seven hundred ninety-seven

*Thomas Jefferson:* one thousand, eight hundred one to one thousand, eight hundred nine

*William McKinley:* one thousand, eight hundred ninety-seven to one thousand, nine hundred one

*John F. Kennedy:* one thousand, nine hundred sixty-one to one thousand, nine hundred sixty-three

**Challenge** Write the dates in your table in expanded form.

CHAPTER 1 LESSON 3

NUMBERS TO THOUSANDS

# MATH IN GEOGRAPHY ■ THE SIZE OF ISLANDS

## MAC Activity 7

The following is a list of some of the world's islands and the area each covers in square miles. Write the word name for each area.

Newfoundland, Canada: 42,031 square miles

Cuba: 40,533 square miles

Greenland: 840,000 square miles

Great Britain: 88,764 square miles

Iceland: 39,768 square miles

**Challenge** Arrange the above islands in order from the smallest to the largest area.

**GREENLAND: 840,000 SQUARE MILES**
