

Why is Stormwater Treatment Important?

Growing concern about stormwater pollution stems from research that shows contaminants carried in stormwater, known as nonpoint source pollutants, are one of the leading causes of water quality problems. Unlike pollution from industrial and sewage treatment plants, it comes from many sources. Each raindrop that falls on impervious surfaces, such as pavement, sidewalks, and roads, can mobilize pollutants on those surfaces. Everything from automobile oil and grease to trash and debris can be carried by runoff into our lakes, streams, rivers and oceans.

Stormwater pollution affects all of us. According to the U.S. Census Bureau, more than 80 percent of the U.S. population lives in a metropolitan area, and the majority live within 10 miles of a polluted river, lake or ocean. Almost 40 percent of these waters are not safe for drinking, fishing, swimming or boating.

Prevention of stormwater pollution is critical. All new developments, retrofits, or site expansions that exceed one acre or are in an urbanized area must implement a stormwater management plan for their site, according to the EPA.

CONTECH Stormwater Solutions provides customers with solutions to meet site-specific requirements. In addition, we design all our products to minimize maintenance and make it as easy and inexpensive as possible to keep our systems working properly. We are dedicated to maintaining healthy waterways.

Our Locations

CONTECH Stormwater Solutions has four principal offices with several sales offices located across North America. Depending on job description and region, you may join a well-established office or start a new one. Some offices co-locate with other CONTECH divisions, including Bridge, Drainage, and Earth Stabilization sales teams.

Our principal offices include:

Corporate Headquarters
 9025 Centre Pointe Dr, Suite 400
 West Chester, OH 45069
 800.338.1122
 Fax: 513.645.7000

Oregon Office
 12021-B NE Airport Way
 Portland, OR 97220
 800.548.4667
 Fax: 800.561.1271

Maine Office

 Fax: 866.376.8511

Your Career at CONTECH Stormwater Solutions

Who is CONTECH Stormwater Solutions?

CONTECH Stormwater Solutions Inc., a division of CONTECH Construction Products Inc, is a progressive, innovative organization with a mission to preserve and protect water resources worldwide. We help our customers achieve their water quality and quantity goals by providing technologies that treat and store stormwater runoff.

Our customers include:

- the civil engineering community
- contractors who install stormwater products
- developers / owners / municipalities
- regulators and water quality agencies
- conservation and environmental groups
- our co-workers

We are a recognized market leader, with a broad product line and deep technical expertise.

Our Products

CONTECH Stormwater Solutions provides environmentally sound stormwater products that are specifically designed to meet national, state, and local regulations. With the most comprehensive product line in the industry, we are able to offer our customers the right solution for their site every time.

Our People

Our team includes design engineers, research scientists, product managers, regulatory experts and project coordinators, just to name a few. We pride ourselves on providing the highest level of service to our customers – both external and internal. We are experts in our field and are dedicated to providing innovative solutions.

About CONTECH® Construction Products Inc.

CONTECH® Construction Products Inc. is a leading provider of site solution products and services for the civil engineering industry. Headquartered in West Chester, Ohio, CONTECH delivers drainage, sanitation, stormwater quality, soil stabilization, and bridge systems to more than 13,000 customers nationwide. Its product portfolio is based on more than a century of research and practical field experience serving the highway, drainage, sewage and site-improvement markets.

The CONTECH Mission Statement

Our mission is to significantly strengthen our industry leadership position by offering innovative civil engineering solutions to our customers and providing the highest quality, cost-effective solutions to the bridge, drainage, earth stabilization, and stormwater markets. We will strive for exemplary financial performance including superior returns for investors; outstanding long-term relationships with partners, vendors and suppliers; talented and dedicated employees; and quality corporate citizenship for our communities.

Join Our Team

At CONTECH Stormwater Solutions, you will find a fun, team-oriented environment. We believe our success is a direct result of people. As you succeed in meeting your own goals and objectives, so do you contribute to the goals and objectives of CONTECH Stormwater Solutions.

Join a team that appreciates your talents and shares your values. We want to create the best opportunity, encouragement, and recognition to develop your talents and make you productive and successful in your job.

As a rapidly growing national firm, we continuously seek talented people to add to our team. If you are an energetic and enthusiastic professional, we want to hear from you.

Search a comprehensive listing of all our job openings at www.contech-cpi.com/careers and submit your resume today.

The achievements of an organization are the results of the combined effort of each individual.
- Vincent Lombardi

Our Values

All of us at CONTECH Stormwater Solutions take personal ownership of the following values. They define and guide how we operate on a daily basis, both within the company and in the communities where we do business.

Integrity

Our integrity is reflected in all of our work.

We foster sustainable relationships through earned credibility.

We stand behind our products because they are developed with technical integrity.

Open Communication

We believe that open and consistent communication fosters trust.

We challenge ourselves to be good listeners and respectful communicators in order to nurture a solid team environment.

Environmental Stewardship

We strive to be responsible stewards of the environment.

We are passionate about preserving and improving the environment by cleaning water.

We lend that passion to all we do.

Innovation

We are all visionaries - open to new and innovative solutions.

We encourage and support individual creativity and growth.

Excellence

Because we value all our customers, we provide excellent service to ensure that customer needs are met and expectations are exceeded.
