

## Evaluation Form: Case study on Gypsy Moths

1. What did you like most about this case study?
2. What did you like least about it?
3. Did the story about Simon enhance your interest in the topic? Was it worth reading? Did you learn from it?
4. Were the web site and the journal article you read informative?
5. Were the goals of this exercise clear? Was the material presented effectively?
6. Did you learn from the discussions (Deciphering figures? Figuring out how outbreaks occur in this system?)?
